**MTW La Ceiba Women's Retreat**

Rest, conversation, rejuvenation, creation... The women of MTW La Ceiba enjoyed several days together at a hotel near home but deep enough in the jungle to be "away" from the busy-ness of daily life. They worshiped together each morning and sometimes in the evenings, read Psalms 120-134 and grew in relationship both with one another and the Lord.

One of the goals of MTW La Ceiba is to train and equip nationals (Hondurans) in leadership. It was a great joy to have 3 "gringas" from the USA and 4 Honduran women as part of our annual women's retreat! Praise the Lord for His provision for our team and the ministry in La Ceiba, Honduras!

Please pray for the MTW La Ceiba team, for our family, and for us as individuals.

- This summer two families on our team will be traveling during our summer team season. There are only a few teams visiting and many hands to help but the two families will be missed - and not just because of summer teams!

- It's hot and dry in La Ceiba. The electric company has scheduled daily, rolling power outages. People are frustrated and protesting.
